EDUCATION

APJ Abdul Kalam Technological University

B-Tech in Computer Science · CGPA: 7.08

August 2018-August 2022

Kozhikode, Kerala

- Relevant Project: Covid-19 Detection Using X-ray Image by Machine Learning

EXPERIENCE

Caparizon

Associate Software Engineer

Oct 2024 – Present

Kochi, Kerala

- Developed scalable enterprise-level web interfaces for Panasonic applications using React.js and JavaScript
- Built and maintained dynamic, responsive UI components with reusable architecture patterns
- Performed end-to-end API testing using Postman and integrated Swagger UI for API documentation and validation
- Automated manual battery creation testing workflows by writing Jest automation scripts
- Implemented backend APIs using NestJS and integrated frontend features with backend services
- Collaborated on feature enhancements, bug fixes, and application performance improvements across modules
- Executed SQL queries and managed database operations using Prisma for efficient data persistence

Finobase Global Solutions Pvt Ltd

Associate Software Engineer

Jul 2023 – August 2024

Kochi, Kerala

- Implemented backend APIs using Node.js and Express.js frameworks
- Collaborated on feature enhancements, bug fixes, and application performance improvements across modules
- Executed SQL queries and managed database operations

Dom Technolabs

React JS Developer

Mar 2023 – Jul 2023

Kochi, Kerala

- Designed and implemented responsive user interfaces using React.js
- Contributed to agile methodology adoption

Poonchola Technologies

React JS Intern

Sep 2022 – Feb 2023

Kozhikode, Kerala

- Developed cross-platform user-facing features using React.js
- Built reusable components and front-end libraries to improve development efficiency

PROJECTS

Panasonic – Enterprise Web Application

React.js, NestJS, Jest, Prisma, SQL, Swagger

- Developed and maintained reusable React.js UI components for enterprise-scale applications
- Integrated frontend functionality with NestJS backend APIs
- Automated manual battery creation testing workflows using Jest

Wardrobe – Caparizon Product

Nest Js, AI/LLM Integration

- Developed an AI-driven platform for wardrobe organisation and personal styling
- Implemented automated outfit recommendation features using weather and event-based data

Aero ERP

React.js, Node.js, Express.js, MySQL

- Built ERP modules covering finance, HR, manufacturing, supply chain, services, and procurement
- Automated business workflows from CRM processes to financial reporting
- Enabled real-time analytics and reporting across multiple operational departments

Property Boz

React.js, React Hook Form, Bootstrap

- Developed and optimized an e-commerce platform that increased user engagement by 30%
- Collaborated with cross-functional teams to launch a fully mobile-responsive website
- Implemented efficient form handling and validation using React Hook Form

TECHNICAL SKILLS

Skills: React.js, Next.js, JavaScript, TypeScript, Node.js, Express.js, NestJS, MySQL, SQL, Prisma, React Hook Form, Material UI, Bootstrap, HTML/CSS, Redux / Redux Toolkit, React Router Dom, Jest

Development Tools: Git, Visual Studio Code, Postman, Swagger UI, Chrome DevTools

Concepts: Compiler, Operating System, Virtual Memory, Cache Memory, Encryption, Decryption, API, Database Normalization, Agile Methodology, Scrum Methodology
